

**Amendments to the Specification**

Amend the paragraph beginning at page 18, line 15, as follows:

-- FIG. 6 depicts the comment box of the document following removal of personal information from a document via activation of the privacy option in Microsoft Corporation's WORD application. As shown in FIG. 6, activation of the privacy option results in the following changes to comment box **600**: removal of the author's name "Mary Smith" from comment box **601**, and replacement of the author's name with a generic string of information, in this case, the word "Author" **602**. It should be noted that activation of the privacy option did not ~~effect~~ affect the text within the comment section (i.e., "This is a comment.") of the comment box.--
